

Craig G. Smucker, M.D.

Hip and Knee Replacement • Complex Fracture Care
Knee Arthroscopy • General Orthopaedics
Legal Medical Examinations

Welcome to First State Orthopaedics

My residency training was done in the busiest trauma center in northern New Jersey. So naturally when I came out in to practice, fracture care was second nature to me. After completing my residency training I returned to Delaware and went into solo practice. However, it wasn't until after a few years in practice that I realized that I wanted to be more specialized in Hip and Knee replacements. I worked for three years in southern Delaware before I returned to New York City to do one more year of advanced training in hip and knee replacements. I returned to this area in 2007 to join the staffs of Christiana Care and Jennersville Regional Hospitals.

My two primary areas of interest are hip and knee reconstruction and the complex care of fracture patients.

My specialty training allows me to offer primary hip and knee replacements, including direct anterior total hip replacements. I also perform complex revision surgeries for both hips and knees. More limited surgeries such as partial knee replacements are also available.

I look forward to being involved in your care.

Sincerely,
Craig G. Smucker M.D.

Voted one of Delaware Today's "Top Doc's"

Craig G. Smucker, M.D.

What to Expect:

Thank you for your patience while completing our forms. Accurate and complete information will assist us in providing you with the highest possible level of care. Additionally, I appreciate your understanding and patience when waiting to see me. In some cases I may be delayed by my other responsibilities in managing my inpatients at three different hospitals. Our goal at First State Orthopaedics is to see you as soon as possible and make sure you receive individualized attention. My goal is to make you an informed patient. If you have questions please write them down.
