

James Zaslavsky, DO, MPT, MBA

Operative Treatment of the Adult Spine

Welcome to First State Orthopaedics

With advanced fellowship training in neck and back surgery, I offer specialty spinal care with a minimally invasive approach.

I practiced for 3 years as a physical therapist prior to attending the Philadelphia College of Osteopathic Medicine. I completed an orthopedic residency at Thomas Jefferson University Hospital and The Rothman Institute. I obtained advanced training in spine surgery during a fellowship at Twin Cities Spine Institution in Minneapolis, MN. Prior to joining First State Orthopaedics, I spent two years as a spine surgeon in the Philadelphia area.

I offer my patients advanced treatment modalities in operative care of the neck and back with a focus on minimally invasive techniques. My expertise as a physical therapist gives me a keen insight into the rehabilitation process that my surgical patients require to achieve the best possible outcomes. I will help guide your experience at First State Orthopaedics from start to finish, helping to restore your function and improve your quality of life.

Sincerely,
James Zaslavsky, D.O.

James Zaslavsky, DO, MPT, MBA
