

William M. Newell, M.D.

Interventional Treatment of Adult Spine
Rehabilitation Medicine

Welcome to First State Orthopaedics

I am board certified as a Physiatrist by the American Academy of Physical Medicine and Rehabilitation. I am also fellowship trained in X-Ray guided and Ultrasound guided interventional techniques. I offer a wide variety of non-surgical interventional procedures for both the diagnosis and treatment of neck, back and joint pain.

My undergraduate training in mechanical engineering gives me a unique outlook into the mechanics of the human body and thus the root causes of many of my patients' complaints. Additionally, I have been an avid competitive rower for many years, and I am reminded every day how important strong, functional, pain-free motion is to every part of our lives.

I take a multidisciplinary approach to helping my patients overcome pain and musculoskeletal complaints, improve overall function, and get more out of life.

I look forward to meeting with you.

Sincerely,
William M. Newell, M.D.

William M. Newell, M.D.

What to Expect:

Thank you for your patience while completing our forms. Accurate and complete information will assist us in providing you the highest possible level of care. Additionally, we appreciate your understanding and patience to see a physician. In some cases, patients require special attention or your physician may be asked to assess a serious injury. Our goal at First State Orthopaedics is to see you as soon as possible and make sure you receive individualized attention. If you require immediate assistance, please notify our front desk and we will expedite your request.
