A note from Dr. Seifert:

As a board certified foot surgeon (ABFAS), my expertise is in the management of foot and ankle pathology in patients of all ages. Growing up as a dancer, I learned from a young age the importance of proper foot health and the effects an injury can have in everyday life.

I am originally from New York, where I was born and raised; graduated from University of Massachusetts-Amherst cum laude with a degree in Kinesiology. I then returned to New York where I attended the New York College of Podiatric Medicine and completed residency focusing in all aspects of foot surgery; including elective and non-elective cases, trauma, limb salvage and reconstructive rear foot and ankle surgery at New York-Presbyterian/Queens, where I served as Chief Resident in my final year.

Moving to Delaware after residency has been an excellent decision. In addition to developing my practice, I have been fortunate enough to be on teaching staff for the Christiana Care Podiatric Medicine and Surgery department where I have the opportunity to train and mold the future of the profession.

In my spare time, I enjoy cooking and baking with my husband, traveling, and spending time with my family and cats.

I look forward to meeting you and helping you solve all of your foot and ankle issues.
