### ***A note from Dr. Brady:***

As a fellowship-trained orthopaedic surgeon, my practice is focused on orthopaedic trauma as well as general orthopaedics. It is my goal to help return you to the active, healthy lifestyle you deserve.

I am a Delaware native and take pride in providing expert, quality orthopaedic care to members of the community in which I grew up. After graduating from Harvard Medical school and completing my Orthopaedics and Fellowship training in Pittsburgh and Cleveland, I am honored to return to serve the residents of the First State and surrounding areas.

In addition to my clinical practice of orthopaedic surgery, I participate in the education of other physicians and healthcare personnel through my affiliation with AO North America and the training programs at Christiana Care and the University of Delaware, and continue to educate myself in order to provide you the best in orthopaedic care.

Outside of medicine I enjoy being active and working out, spending time with my family and friends, and serving the community through Alpha Pi Alpha Fraternity activities.

Please let me know if there is anything I can do to further improve your experience at First State Orthopaedics.

I appreciate you entrusting your orthopaedic needs to me. I am looking forward to meeting with you.
